<p>ROGI sources seeds from Green Harvest in Maleny and from ROGI members who have carefully saved their own seeds. They are organic and guaranteed non-GM.</p> <p>We don't buy seeds from other climate zones.</p> <p>ROGI seed prices are low because:</p> <ol style="list-style-type: none"> 1. The seeds are packaged in quantities usable by a home gardener before they are unviable. 2. There is no profit margin. 3. There are no labour costs. 			<p>Sprouts & Microgreens</p> <p>Alfalfa Beetroot Broccoli & Friends Fenugreek Mustard Mung Bean Pea Shoots Radish Sprouting Radish China Rose Radish Rambo Wheatgrass</p> <p>Storing your seeds. Store seed in a sealed container in fridge or cool place—not a garden shed or garage that can reach over 40° in summer. They will die. In paper bags, they are open to the air and can take up moisture and lose viability, so pop the envelopes into glass jars or sealed plastic containers.</p>
