			Sprouts & Microgreens, and others
			<p>Alfalfa Fenugreek Mung Bean Radish Rambo</p> <p style="text-align: center;">Garlic – 'Italian Pink' – suitable for SEQ</p>
<p>Please note.</p> <p>This Seed Bank list is updated often so that it is current.</p> <p>Please check on this page for the date to see if the list is new.</p> <p>We also have free seeds from ROGI Seed Savers' group. The list is also under Resources on our website, although it is not updated as often.</p>			<p style="border: 1px solid black; padding: 5px;">There are plenty of several varieties of free tomato seeds in our Seed Savers' collection. Ask.</p>
			<p>Storing your seeds. Store seed in a sealed container in fridge or cool place - not a garden shed or garage that can reach over 40° in summer. They will die.</p> <p>In paper bags, they are open to the air and can take up moisture and lose viability. So, pop the envelopes into glass jars or sealed plastic containers.</p>

About ROGI Seeds

ROGI sources seeds from Green Harvest in Maleny and from ROGI members who have carefully saved their own seeds. They are mostly organic and guaranteed non-GM.

ROGI seed prices are low because:

1. The seeds are packaged in quantities usable by a home gardener before they become unviable.
2. There is no profit margin.
3. There are no labour costs.
